I live in the Parish			Tick if you would be happy for us to contact you about your consultation response : Tick if you like to be kept up to date (by email) of the plans progress :		
Plan Comments			Parish Economy		
WOW - what a lot of work you have all put into preparing this document. Well done to all.			We would really welcome an improvement to the broadband service as we have so many problems with our internet - and don't think we're alone with this!		
The Natural Environment		The Settlement Boundary		A Review of Heritage Assets	
We welcome the high degree of protection of both Stedham and Iping Commons; and are sure that you will maintain the dark skies and tranquility state of the parish despite the new building plans. We also welcome the protection of the views in the village; particularly of Rectory Field for obvious reasons.		Loved this section. So good to read the history of the village and to know that we will all work to protect it.			
Getting Around & Transportation and Accessibility			Assessment of Potential Development Sites		
My biggest worry here is the speed at which people - usually delivery drivers/visitors - drive through the village so any way in which we can enforce speed restrictions would be welcomed.: We have noticed that the cycle path into Midhurst is not in great condition so would welcome maintenance of this valuable asset; to avoid cycling on the A272. While we do not currently use the local bus service; we support your endeavours to maintain a reliable service for residents to be able to get into Midhurst etc.			We support the proposed Neighbourhood Plan to have 8-12 houses on the north east side of the Sawmills site; and up to 8 affordable homes west of West Lodge; Rotherhill.		
A Review of Open Spaces and Views			Created On		
We accept and support that the Rectory Field; XXXXXXXXXX adjacent to the Memorial Hall; is a designated Local Green Space and is therefore protected from development.			10/04/2018 21:29
