

Dear Council,

Stedham with Iping Neighbourhood Plan ref. page 7

Having read the section on Transportation and Accessibility could I suggest the following amendments;

As stated in the plan,

*SIPC is a founder member of Midhurst Area Cycling (MAC) which was formed in 2003 by local parish councils and individuals to promote improved conditions for cycling.*

MAC is the lobbying group and so to state that SIPC and other PCs should join together to form a lobby group does not really make sense. PCs actively represented at present are; Stedham, Trotton, Harting, Woolbeding, Bepton, Cocking , Easebourne and Midhurst Town Council

Could I suggest changing the wording slightly to;

*It is recommended the SIPC continues to work co-operatively with MAC in its aims to press for improved conditions for*

*cycling with a view to creating a cycling hub in Midhurst with links to the surrounding villages.*

Also I would like to draw your attention to the fact the proposed Petersfield/midhurst cycleway along the old railway line is now called the Rother Valley Way , the Green part has been dropped to avoid confusion with Greenways which are often used by motorised traffic.

regards

Angela Henslow

MAC
